@MORMITTIOFFICIAL

MOR MITTI

Mor Mitti is a sustainable rural initiative in India that aims to promote traditional knowledge, cultural values, and social entrepreneurship. By integrating these elements into the local ecosystem, we strive to empower communities in Simdega to redefine sustainability. The project emphasizes self-dependence and sufficiency, encouraging the community to cultivate vegetables for Mor Mitti without involving intermediaries. All individuals employed by Mor Mitti receive on-the-job training and are local residents who had either migrated in search of livelihood or faced the risk of habitual migration. However, Mor Mitti is more than just a means of earning a living; it represents the convergence of work ethic, knowledge exchange, and communal harmony. Through this initiative, we introduce people to various aspects of sustainability and provide opportunities for them to enhance their way of life. Our goal is to create a holistic and self-sustaining ecosystem that benefits both the local communities and the environment.

धन्यवाद
